

# CALL FOR PAPERS

**ICAPMET 2019**  
**May 23-24, 2019**  
**Barcelona, Spain**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAPMET 2019 : International Conference on Agricultural Pollution Management, Environment and Technology is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Agricultural Pollution Management, Environment and Technology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Agricultural pollution  
Agricultural waste management  
Practices and technology  
Farm waste management practices  
Environmental regulation  
Abiotic sources  
Pesticides  
Pesticide leaching  
Fertilizers  
Leaching, runoff, and eutrophication  
Organic contaminants  
Heavy metals  
Land management

Tillage and nitrous oxide emissions  
Soil erosion and sedimentation  
Biotic sources  
Greenhouse gases from fecal waste  
Biopesticides  
Introduced species  
Invasive species  
Biological control  
Genetically modified organisms (GMO)  
Genetic contamination and ecological effects  
GMO as a tool of pollution reduction  
Animal management  
Manure management
